

# Yale

Faculty Positions  
Department of Cell Biology  
Yale University School of Medicine

The Cell Biology Department seeks exceptional candidates at the rank of Assistant or Associate Professor who wish to initiate independent research programs in the field. Successful candidates will have PhD, and/or M.D. degrees and a demonstrated record of originality and productivity in research during graduate training and/or post-doctoral research, as well as well-formulated plans for independent research. Although the focus is on tenure-track junior faculty appointments, applicants for senior faculty ranks may also be considered. The Department is undergoing a major expansion under the Chair, Dr. James E. Rothman, and houses the newly-founded Yale Center for High Throughput Cell Biology. Although exceptional candidates in all areas of cell biology will be considered, we are especially interested in candidates who are investigating the organization, dynamics and cell biology of the nucleus.

Please email your CV with a list of publications, a summary of doctoral research [1 page], a summary of post-doctoral research [max. 2 pages], and a research plan [max. 3 pages], along with the names and addresses (including email) of three potential references by October 23, 2009 to: [cellbio.search@yale.edu](mailto:cellbio.search@yale.edu)

Applications from, or nominations of, women and minority scientists are encouraged. Yale is an Affirmative Action/Equal Opportunity Employer.
