

LIST OF PUBLICATIONS

PEER REVIEWED PAPERS

1. Leranth C and Csányi K (1966). Innervation of the teeth. **Acta Morph Acad Sci Hung 15:391-399**
2. Vajda J and Leranth C (1967). Uber das Lymphgefäßsystems des Dickdarms. Acta Morph Acad Sci Hung 15:257-263
3. Leranth C, Ungváry G and Donáth T (1969). The innervation of the juxtaglomerular apparatus. **Acta Morph Acad Sci Hung 17:131-141**
4. Ungváry G and Leranth C (1970). Termination in the prevertebral abdominal sympathetic ganglia of axons arising from the local (terminal) vegetative plexus of visceral organs. Peripheral reflex arcs. **Z Zellforsch 110:185-191**
5. Leranth C and Hámori J (1970). Dark Purkinje cells of the cerebellar cortex. Acta Biol Acad Sci Hung 21:405-419
6. Ungváry G, Petrovics E, Leranth C and Naszály A (1970). The vena portae as an independent venous segment. **Acta Morph Acad Sci Hung 19:269-281**
7. Leranth C, Zaborszky L, Makara GB and Palkovits M (1972). Degeneration im Nucleus supraopticus nach Unterbrechung der afferente Systeme des Hypothalamus. **Anat Anz 130:587-593**
8. Zaborszky L, Leranth C and Palkovits M (1972). Faserdegeneration im Hypothalamus und im limbischen System nach konventionellen (dorsomedianen) Penetrationen. **Anat Anz 130:595-600**
9. Ungváry G, Leranth C and Naszály A (1972). Die Innervation der A. hepatica und V. portae. Experimentelle-histologische und histochemische Studien. **Anat Anz 130:187-193**
10. Ungváry G and Leranth C (1972). Innervation of the hepatic vein sphincters. **Acta Anat 83:619-632**
11. Mázlo M and Leranth C (1972). Elektronmikroskopos megfigyelesek subacut progressziv panencephalitis subacut de chronicus lefolyasu eseteiben. **Ideggyogyaszati Szemle 251:385-399**
12. Zaborszky L, Leranth C and Palkovits M (1974). Gold thioglucose induced terminal degeneration in mouse hypothalamus. *Experientia* 30:811-814
13. Leranth C and Schiebler TH (1974). Uber die Aufnahme von Peroxidase aus dem 3. Ventrikel der Ratte. Elektronmikroskopische Untersuchungen. **Brain Res 67:1-11**
14. Leranth C and Schiebler TH (1974). Elektronmikroskopische Untersuchungen uber die Resorbtion von Peroxidase aus dem 3. Ventrikel. **Verh Anat Ges 68:327-333**

15. Leranth C, Zaborszky L, Marton J and Palkovits M (1975). Quantitative studies on the supraoptic nucleus in the rat. I. Synaptic organization. **Exp Brain Res 22:509-523**
16. Zaborszky L, Leranth C, Makara GB and Palkovits M (1975). Quantitative studies on the supraoptic nucleus in the rat. II. Afferent fiber connections. **Exp Brain Res 22:525-540**
17. Donáth T, Leranth C and Ungváry G (1975). Adatok a vese veloallományának beidegzesehez. **Orvostudomány 26:21-26**
18. Leranth C, Brownstein MJ, Zaborszky L, Járányi Z and Palkovits M (1975). Morphological and biochemical changes in the rat interpeduncular nucleus following the transection of the habenulo-interpeduncular tract. **Brain Res 99:124-128**
19. Leranth C and Schiebler TH (1975). Über die Pituicyten und Tancyten der Ratte. Experimentelle Untersuchungen. **Nova Acta Leopoldina 217:55-65**
20. Ungváry G and Leranth C (1976). Termination in the stellate ganglion axons arising from the hilar vegetative plexus of the lung. Peripheral reflex arcs. **Acta Anat 95:589-597**
21. Zaborszky L, Leranth C and Palkovits M (1976). Quantitative Untersuchungen am Nucleus supraopticus. **Verh Anat Ges 70:59-62**
22. Palkovits M, DeJong W, Zandberg P, Versteeg DHG, Van der Gugten J and Leranth C (1977). Central hypertension and nucleus tractus solitarii catecholamines after surgical lesions in the medulla oblongata of the rat. **Brain Res 127:307-312**
23. Palkovits M, Leranth C, Zaborszky L and Brownstein MJ (1977). Electron microscopic evidence of direct neuronal connections from the lower brainstem to the median eminence. **Brain Res.136:339-344**
24. Leranth C (1978). Electron microscopic and cytophotometric studies on the abdominal prevertebral and paravertebral ganglia of the cat. **Acta Anat 102:126-128**

Papers Published After Receiving Ph.D. Degree (1978).

25. Cuc H van, Leranth C and Palkovits M (1979). Light and electron microscopic studies on the medial forebrain bundle of the rat. I. Nerve terminals in the lateral hypothalamus of extrahypothalamic origin. **Acta Morph Acad Sci Hung 27:59-63**
26. Cuc H van, Leranth C, and Palkovits M (1979). Light and electron microscopic studies on the medial forebrain bundle in the rat. II. Nerve terminals from the medial hypothalamus. **Acta Morph Acad Sci Hung 27:64-82**
27. Zaborszky L, Leranth C and Palkovits M (1979). Light and electron microscopic identification of monoaminergic terminals in the central nervous system. **Brain Res Bul 4:99-117**

28. Cuc H van, Leranth C and Palkovits M (1980). Light and electron microscopic studies on the medial forebrain bundle in rat. III. Degenerated nerve elements in the medial hypothalamic nuclei following surgical transections of the medial forebrain bundle. **Brain Res Bul 5:13-22**
29. Leranth C and Ungváry G (1980). Axon types of prevertebral ganglia and the peripheral autonomic reflex arc. **J Aut Nerv Syst 1:265-281**
30. Leranth C, Williams TH, Chretien M and Palkovits M (1980). Ultrastructural investigation of ACTH immunoreactivity in arcuate and supraoptic nuclei of the rat. **Cell Tiss Res 210:11-19**
31. Leranth C, Williams TH, Jew JY and Arimura A (1980). Immuno-electron microscopic identification of somatostatin cells and axons of guinea pig sympathetic ganglia. **Cell Tiss Res 212:83-89**
32. Palkovits M, Makara GB, Leranth C, and Cuc H van (1980). Intrahypothalamic terminals of stress conducting fibers. **Brain Res 190:399-407**
33. Leranth C, Williams TH, Hámori J and Chretien M (1981). Light and electron microscopic localization of ACTH-like activity in rat cerebellar and red nuclei. **Neuroscience 6:481-487**
34. Leranth C and Hámori J (1981). Quantitative electron microscopic study of synaptic terminals to basket neurons in cerebellar cortex of rat. **Z Mikrosk Anat Forsch. 95:1-14**
35. Leranth C, Jew JY, Williams TH and Palkovits M (1981). Stria terminalis axons ending on substance P- and neurotensin-containing cells of rat central amygdaloid nucleus: An electron microscopic immunocytochemical study. **Neuropeptides 1:261-272**
36. Palkovits M, Leranth C, Jew JY and Williams TH (1982). Simultaneous characterization of pre- and post-synaptic neuron contact sides in brain. **Proc Nat Acad Sci USA 79:2705-2708**
37. Palkovits M, Leranth C, Eiden EL, Rostene WH and Williams TH (1982). Intrinsic vasoactive intestinal polypeptide (VIP) containing neurons in the baroreceptor nucleus of the solitary tract in rat. **Brain Res 244:351-355**
38. Rostene WH, Leranth C, Maletti M, Mezey E, Besson J, Eiden DE, Rosselin G and Palkovits M (1982). Distribution of vasoactive intestinal polypeptide (VIP) following various brain transections in the rat by radioimmunoassay and electron microscopic immunocytochemistry. **Neuropeptides 2:337-351**
39. Leranth C, Palkovits M and Krieger DT (1983). Serotonin immunoreactive nerve fibers and terminals in the rat pituitary. **Neuroscience 9:289-296**
40. Maxwell D, Leranth C and Verhofstad AJ (1983). Fine structure of serotonin containing axons in the marginal zone of the rat spinal cord. **Brain Res 266:253-259**

41. Fehér E and Leranth C (1983). Light and electron microscopic immunocytochemical localization of vasoactive intestinal polypeptide (VIP)-like activity in the rat small intestine. **Neuroscience 10:97-106**
42. Féher E, Leranth C and Verhofstad AAJ (1983). Distribution and fine structure of serotonin containing fibers in the small intestine. **Acta Biol Hung 34:73-80**
43. Leranth C and Fehér E (1983). Synaptology and sources of vasoactive intestinal polypeptide (VIP)- and substance P (SP)-containing axons of the cat celiac ganglion. (An experimental electron microscopic immunohistochemical study). **Neuroscience 10:947-958**
44. Leranth C, Antoni FA and Palkovits M (1983). Ultrastructural demonstration of ovine CRF-like immunoreactivity (oCRF-LI) in the rat hypothalamus: Processes of magnocellular neurons establish membrane specializations with parvocellular neurons containing oCRF-LI. **Reg Peptides 6:179-188**
45. Friedman E, Krieger DT, Leranth C, Mezey E, Brownstein MJ and Palkovits M (1983). Serotonin innervation of the pituitary intermediate lobe. **Endocrinology 112:1943-1947**
46. Squier CA, Leranth C, Ghoneim S and Kremenak CR (1983). Electron microscopic immunochemical localization of actin in fibroblasts in healing skin and palate wounds of beagle dog. **Histochemistry 78:513-522**
47. Leranth C and Frotscher M (1983). Commissural afferents to the rat hippocampus terminate on vasoactive intestinal polypeptide-like immunoreactive non-pyramidal neurons: An EM immunocytochemical degeneration study. **Brain Res 276:357-36**
48. Fehér E, Leranth C and Williams TH (1984). Ultrastructural identification of substance P cells and processes in rat myenteric plexus. **Acta Morph Acad Sci Hung 32:23-30**
49. Leranth C, Frotscher M, Tömböl T and Palkovits M (1984). Ultrastructure and synaptic connections of vasoactive intestinal polypeptide-like immunoreactive neurons and axon terminals in the rat hippocampus. **Neuroscience 12:531-542**
50. Kiss J, Leranth C and Halász B (1984). Serotonergic axons ending on VIP neurons in the suprachiasmatic and on ACTH neurons in the arcuate nucleus of the rat hypothalamus. A combination of high resolution autoradiography and electron microscopic immunocytochemistry. **Neurosci Lett 44:119-124**
51. Frotscher M, Leranth C, Lübbers K and Oertel W (1984). Commissural afferents innervate glutamate decarboxylase immunoreactive non-pyramidal neurons in the guinea pig hippocampus. **Neurosci Lett 46:137-143**
52. Mezey E, Leranth C, Brownstein MJ, Friedman E, Krieger DT and Palkovits M (1984). On the origin of serotonergic input to the intermediate lobe of the rat pituitary. **Brain Res 294:231-237**

53. Jew JY, Leranth C, Arimura A, and Palkovits M (1984). Preoptic LH-RH and somatostatin in the rat median eminence: An experimental light and electron microscopic immunocytochemical study. **Neuroendocrinology** **38:169-175**
54. Zaborszky L, Leranth C and Heimer L (1984). Ultrastructural evidence of amygdalofugal axons terminating on cholinergic cells of the rostral forebrain. **Neurosci Lett** **52:219-225**
55. Leranth C, Csillik B and Knyihár-Csillik E (1984). Depletion of substance P and Somatostatin in the upper dorsal horn after blockade of axoplasmic transport. **Histochemistry** **81:391-400**
56. Leranth C, Sakamoto H, MacLusky NJ, Shanabrough M and Naftolin F (1985). Estrogen responsive cells in the arcuate nucleus of the rat contain Glutamic Acid Decarboxylase (GAD): An electron microscopic immunocytochemical study. **Brain Res** **331:376-381**
57. Leranth C, Sakamoto H, MacLusky NJ, Shanabrough M and Naftolin F (1985). Application of Avidin-Ferritin and peroxidase as contrasting electron-dense markers for simultaneous electron microscopic immunocytochemical labelling of Glutamic Acid Decarboxylase and Tyrosine Hydroxylase in the rat arcuate nucleus. **Histochemistry** **82:165-168**
58. Leranth C, Sakamoto H, MacLusky NJ, Shanabrough M and Naftolin F (1985). Intrinsic tyrosine hydroxylase (TH) immunoreactive axons synapse with TH immunopositive neurons in the rat arcuate nucleus. **Brain Res** **331:371-375**
59. Zaborszky L and Leranth C (1985). Simultaneous ultrastructural demonstration of retrogradely transported horseradish peroxidase and choline acetyltransferase immunoreactivity. **Histochemistry** **82:529-537**
60. Leranth C, MacLusky NJ, Sakamoto H, Shanabrough M and Naftolin F (1985). Glutamic acid decarboxylase-containing axons synapse on LHRH neurons in the rat medial preoptic area. **Neuroendocrinology** **40:536-539**
61. Maxwell DJ, Leranth C and Verhofstad AAA (1985). Synaptic arrangements formed by serotonin-immunoreactive axons in the substantia gelatinosa of the rat spinal cord. **Quarterly J Exp Phys** **70:377-388**
62. Frotscher M and Leranth C (1985). Cholinergic innervation of the rat hippocampus as revealed by choline acetyltransferase immunocytochemistry: A combined light and electron microscopic study. **J Comp Neurol** **239:237-246**
63. Reece EA, Pinter E, Leranth C, Garcia-Segura M, Sanyal MK, Hobbins JC, Mahoney MJ and Naftolin F (1985). Ultrastructural analysis of malformations of the embryonic neural axis induced by in vitro hyperglycemic conditions. **Teratology** **32:363-375**
64. Leranth C, Segura LMG, Palkovits M, MacLusky NJ, Shanabrough M and Naftolin F (1985). The LH-RH containing neuronal network in the preoptic area of rat: Demonstration of LH-RH containing nerve terminals in synaptic contact with LH-RH neurons. **Brain Res** **345:332-336**

65. Pinter E, Reece EA, Leranth C, Sanyal MK, Hobbins JC, Mahoney MJ and Naftolin F (1986). Yolk sac failure in embryopathy due to hyperglycemia. Ultrastructural analysis of yolk sac differentiation associated with embryopathy in rat conceptuses under hyperglycemic conditions. **Teratology** **33:73-84**
66. Feher E, Leranth C, Gallatz K (1986) Somatostatin immunoreactive nerve elements in the rat small intestine: light and electron microscopic studies. **Acta Morph Hung** **34:59-71**
67. Lenn NJ, Leranth C and Zaborszky L (1986). Choline acetyltransferase immunoreactivity is localized to four types of synapses in the rat interpeduncular nucleus. **J Neurocyt** **14:909-919**
68. Frotscher M and Leranth C (1986). The cholinergic innervation of the rat fascia dentata: Identification of target structures on granule cells by combining choline acetyltransferase immunocytochemistry and Golgi impregnation. **J Comp Neurol** **243:58-70**
69. Leranth C, Palkovits M, MacLusky N, Shanabrough M and Naftolin F (1986). Reproductive failure due to experimentally-induced constant estrus does not alter fiber density in the median eminence of the rat. **Neuroendocrinology**, **43:526-532**
70. Frotscher M, Schlander M and Leranth C (1986). Cholinergic neurons in the hippocampus: A combined light and electron microscopic immunocytochemical study in the rat. **Cell and Tissue Res** **246:293-301**
